1. BACKGROUND & CONTEXT

The Health and Welfare Sector Education and Training Authority (HWSETA) is mandated by the Skills Development Act No. 97 of 1998 as amended, which amongst other things provides for the development and updating of a Sector Skills Plan (SSP) within the framework of the National Skills Development Plan (NSDP). This plan is meant to address the skills development needs of the sector, which in the case of the HWSETA covers the Standard Industrial Classification (SIC) codes as per the HWSETA constitution. The SSP is developed at the start of a strategic period. It is then updated annually within the strategic period to keep track, adjust, and adapt to significant changes that affect the skill levels of the sector. As such, the HWSETA requires the services of a research service provider to conduct a research study that will ultimately contribute towards the update of an SSP.

The Organizing Framework for Occupations (OFO) classifies the Policy Administration Professionals as the unit group that is under the professionals. Policy Administration Professionals constitute seven occupations as shown in the Table below.

Table below shows the specialisations of each of the two occupations.

Occupations	Descriptors
242202 – Policy analyst	Collects and analyses information and data to produce intelligence for public or private sector organizations to support planning, operations and human resource functions.
242207 – Compliance Officer	Provides compliance services to assist management to discharge their responsibilities by complying with applicable regulatory requirements.
242209 – Accounting Officer	Determines whether the annual financial statements of a company or close corporation are in agreement with the accounting records of the company or corporation; reviews the appropriateness of the accounting policies represented to the accounting officer as having been applied in the preparation of the annual financial statements; and drafts reports in respect of these tasks to the company or corporation.
242210 – Business Administrator	Provides administrative and secretarial support to company directors.
242211 – Internal Auditor	Evaluates and improves the effectiveness of risk management, control, and governance processes within an organization.
242213 – Regulatory Affairs	Compiles and prepares scientific reports for submission to

Occupations	Descriptors
Officer	regulatory authorities and assists in obtaining government approval for drugs, medical devices, veterinary products, cosmetics and foods.
242214 – Intellectual Property Special Advisor	Integrates Expert technology appreciation and Intellectual Property management principles to develop and execute Intellectual Property protocols and strategies that enable technology and business objectives.

As such, the HWSETA requires the services of a research service provider to conduct a research study to gain insight into what explains the changes, using the supply (training capacity) and demand analysis of Policy Administration Professionals.

2. RATIONALE AND PURPOSE

This serves as a request for proposals and quotations from relevant research service providers to conduct a research study that will contribute towards the update of a Sector Skills Plan (SSP). This study will assess the extent and nature of the demand and supply of the Policy Administration Professionals, looking into the education and training landscape for these occupations, and highlighting implications for skills development.

3. GOAL

The goal of the study is to analyze the extent and nature of the demand and supply of Policy Administration Professionals to gain insight into how the education and training landscape influences or explains occupational shortages. Insights gained will inform evidence-based interventions to close the occupational gaps in the health sector.

4. OBJECTIVES

The study should, therefore, address the following related objectives:

- a) To quantify the number of Workers in each of the Policy Administration Professionals in South Africa.

- b) To assess the capacity for the training of each of the Policy Administration Professionals in the South African education and training institutions
- c) To assess the job placement of graduates from each of the Policy Administration Professionals in South Africa after completion of qualifications
- d) To assess the extent of demand for each of the Policy Administration Professionals in South Africa.

5. SPECIFIC RESEARCH QUESTIONS

The research study seeks to answer the following specific questions in relation key objectives as numbered above:

- a) How many learners have been enrolled and completed qualifications of each of the Policy Administration Professionals?
 - i) What are the other factors that affect enrolments and completions for each of the Policy Administration Professionals?
- b) How many training provider organizations in South Africa are offering qualifications for each of the Policy Administration Professionals?
 - i) How many spaces are available with training provider organizations for learner enrolments in qualifications for each of the Policy Administration Professionals?
 - ii) Of those enrolled in qualifications for each of the Policy Administration Professionals, how many have been funded by the HWSETA?
 - iii) What other factors are affecting the training capacity of skills development providers that offer training for Policy Administration Professionals' qualifications?
- c) What is the annual job placement ratio of Policy Administration Professionals against graduates produced per annum across the public and private sectors for practice?
 - i) What are the limitations imposed by legislative or regulatory frameworks to placement of the Policy Administration Professionals in the public, private, and NPO sectors?
- d) What is the vacancy rate of positions for Policy Administration Professionals?
 - i) What are the other factors that have been affecting the demand for Policy Administration Professionals?

6. SCOPE OF WORK

The study will focus on the seven occupations under Policy Administration Professionals exploring the extent of demand and supply of these occupations. The study will use a mixed-method approach, which will focus on the collection and analysis of primary virtual qualitative interviews (15 one-on-one interviews with relevant organizations, i.e. employers) and secondary data analysis. The study covers a period of not more than 9 years (2017 to 2025).

The service provider will be required to:

- Conduct a document review of the supply and demand of Policy Administration Professionals
- Conduct secondary database analysis of at most 9 years (2017 to 2025) of enrolment dataset for qualifications in Policy Administration Professionals
- Conduct secondary database analysis of at most 9 years (2017 to 2025) of completion dataset for qualifications in Policy Administration Professionals
- Conduct secondary database analysis of at most 9 years (2017 to 2025) of demand datasets for occupations in Policy Administration Professionals.

NB: Secondary databases to be provided by HWSETA to the service provider for analysis.

(Further data may be requested from Training institutions and professional bodies responsible for Policy Administration Professionals).

- Conduct 15 one-on-one virtual qualitative interviews, ensuring representation across six occupations from organizations of Policy Administration Professionals.

A research service provider must formulate the interview guide, which HWSETA must approve.

- Deliver a recording and transcripts of the virtual qualitative interviews conducted
- Conduct data analysis based on the analytical framework provided by the HWSETA.
- Prepare and submit a research report using a template provided by the HWSETA.

7. COMPETENCY AND EXPERTISE REQUIREMENTS

Prior to the bidder being subjected to the competency/ functional criterion, **it is mandatory for the bidder to have the research ethics approval capacity, where at least two names (team leader and any team member) are confirmed to have an active certificate of Training and Resources in Research Ethics Evaluation (TRREE) specifically Module 1 (introduction to research ethics) & Module 3 (informed consent),**

<https://elearning.trree.org/>. The certificate should be provided.

NB: If a bidder does not meet these mandatory requirements, they will be disqualified immediately without undergoing the competency/functional criterion.

The successful bidder must have the following competencies:

8. TIMELINES OF THE PROJECT

The duration of the project will be eighty (100) working days from the date that will be specified by the HWSETA.

9. EXPECTED DELIVERABLES

The service provider will be required to deliver:

- Conceptual proposal including methodology
- Literature Review (includes document review analysis)
- Ethical clearance from a registered organisation
- Interview schedule for virtual qualitative interviews for review and approval by HWSETA.
- Recorded audios and transcripts of virtual qualitative interviews
- Enrolments and completions secondary database analysis in files and graphics
- Research report & Presentation.

10. QUALITY AND REPORTING REQUIREMENTS

The service provider will report directly to the Researcher (appointed as project lead from HWSETA) and the Research and Information Manager of HWSETA, as and when required. The service provider must oversee the general management of the service and performance.

11. PRICING

- The proposed project pricing must be all inclusive of VAT.
- The HWSETA may require a breakdown of rates on any of the items priced, and service providers are required to provide the same.
- The HWSETA reserves the right to negotiate the selection/prioritisation of deliverables in line with the contract price.

The following table must be used for the quotation. However, you are free to include more quotation details in your own preferred format in addition to the table shown below.
