

TO THE HWSETA STAKEHOLDER SESSION WITH THE HEALTH SECTOR

Meeting the skills development needs of the health sector requires a coordinated approach and collective thinking from all HWSETA key stakeholders. The HWSETA Board and Chairperson, therefore, cordially invites you to a virtual stakeholder engagement session.

Background

The strategy of the HWSETA is mainly informed by the National Skills Development Plan (2020-2030), Scope of authority of the HWSETA contained in the HWSETA constitution, Sector Skills Plan (SSP), and considers the following government developmental plans to improve the quality and relevance of education and training by you people.

-  Medium Term Developmental Plan (MTDP 2024-2029)
-  Reconceptualized Human Resource Development Strategy (2024-2033)
-  Just Energy Transition Investment Plan (2023-2027)
-  White Paper for Post School Education and Training 2013
-  Fourth Industrial Revolution (4IR) Skills
-  Support for Small Medium Enterprises and Cooperatives
-  District Development Model

Discussion

The objective is to understand the skills development needs of our stakeholders beyond 2025 as it relates to **expanded access for unemployed youth & improved responsiveness of the education and training interventions to the sector.** We therefore provide an opportunity to stakeholders to interact with the HWSETA based on the research done and the projected future focus on skills development and the needs of the sector.

The outcome of the session will enable the HWSETA to understand and confirm the needs in the sector and direct our strategy and plans.

02 December 2025

09:00 to 15:00

Virtual Meeting

Kindly RSVP to Lindiwe Malambe on lindiwem@hwseta.org.za or tel: 011 607 6922 for further clarity.
